 Application: Compact drive for ventilation, shading, and lifting systems in greenhouses and livestock buildings

• Voltage: 400-450 V, 3-phase

• Speed: 3 rpm

• Protection class: IP55 - dust and water resistant

• End switch: Integrated linear limit switch system with high switching precision

• Temperature range: 0-60 °C

• Features: Self-locking worm gear, quiet operation, optional RPU PositioningUnit or potentiometer kit

• Ridder Article No.: 502310

The **RW243 motor gearbox** is a compact and powerful solution for greenhouse automation. Its robust design and precise switching system make it ideal for long-term use in harsh environments.
