## Description

- **Application:** Protecting polyester wires routed through holes in metal profiles
- **Material:** Plastic
- **Installation:** Snap-fit locking in sheet metal via integrated detent
- **Max. Profile Thickness:** 4 mm
- **Packaging Unit:** 1000 pcs

**Wire Guide 4.8** is a plastic insert designed to protect **polyester wires** that pass through openings in **metal profile sections**. Its integrated detent mechanism ensures secure anchoring within the sheet, preventing movement and abrasion.

Compatible with profiles up to **4 mm thick**, this wire guide offers an effective and durable solution to reduce wear and extend the service life of cable systems in greenhouse structures and technical installations.
