Description

- **Application:** Greenhouse shading fabric for temperature regulation
- **Material:** Acrylic and aluminum fibers
- **Shading Rate:** Approx.65%
- **Width:** 450 cm
- **Color:** Alu-white
- **Mounting:** Can be suspended using S-hooks without additional finishing
- **Features:**
 - Reflects sunlight to reduce internal temperatures
 - Absorbs evaporative moisture for improved climate control
 - Made in Germany

FFS 4/4 alu-white - 450 cm is a high-quality shading fabric engineered for optimal climate performance in greenhouses. The woven aluminum threads effectively reflect solar radiation, while the acrylic fibers help control humidity, reducing the risk of fungal growth. This version offers a balance of light diffusion and temperature management in wide spans. No additional tailoring needed—just hang with S-hooks and go.

Note: Price refers to raw material only. Additional charges may apply for fabrication.

Product information

Energy Saving:	60 %
Shading:	65 %
Direct Light transmission:	35 %
Flame retardant (DIN 4102 B1):	No
UV Stabilization:	5 years (climate: Central Europe)
Weight (+/- 10%):	115 g/m ²
