Description

- **Application:** Bearing support for 34 mm drive shafts in ventilation and shading systems
- **Material:** Galvanized steel for high corrosion resistance
- **Mounting:** Equipped with mounting holes for M8 screws
- **Feature:** Two-piece housing allows easy bearing replacement

Pillow block 1" with bearing is a robust and durable solution for supporting 34 mm drive shafts in greenhouse ventilation and shading systems. Its galvanized steel construction ensures long-term corrosion resistance, making it ideal for demanding environments.

The two-piece design enables quick replacement of the ball bearing when needed. With integrated M8 mounting holes, it offers secure and stable installation—perfect for professional greenhouse applications.

All prices excl. VAT plus shipping costs and possible delivery charges, if not stated otherwise.
