• Packaging Unit: 2500 pcs

**S-Hook Type 3 - UV-stabilized** is specifically designed for **attaching fabric to Inox wires** in suspended greenhouse setups. Manufactured from robust, UV-stabilized plastic, it offers long-term resistance to environmental effects and reliable performance.

Its integrated plastic rib acts as a fabric stop, making this S-Hook ideal for **thin mesh materials** where precise positioning is essential. The design ensures stable fastening and reduces the risk of fabric slippage.
