

## Overview

# Telescopic rod pole inc. plastic pole hook - ready mounted

**Product number:** 05102003

## Description

- **Application area:** Practical tool for retrieving distant objects, e.g. attic stairs
- **Material:** Plastic hook, pre-assembled
- **Hook length:** Including mount: 76 mm

- **Dimensions:** Length: 0.86 – 1.45 m - Diameter: 24 mm

The **Telescopic rod with hook** is a versatile tool ideal for gripping and retrieving hard-to-reach items. Especially useful for attic stairs or similar applications.

Thanks to its high-quality plastic construction, the hook is durable and reliable. The telescopic function allows flexible length adjustment for various usage scenarios.
