

Overview

Safety cover for racks - Extension 50 cm

Product number: 32200103

Description

- **Application:** Extension for rack protection sets (3- or 4-part)
- **Material:** Aluminum tube (cut to length)
- **Length:** 500 mm (customizable)
- **Mounting:** Used with pinion housing protection and rack safety plugs
- **Benefit:** Extends the standard 1-meter rack protection tube

The **Safety Cover for Racks - Extension 50 cm** is an add-on for the standard rack protection sets. It allows you to extend the aluminum protection tube beyond the default 1-meter length. Ideal for sensitive areas in greenhouses where injury or contamination must be avoided.
