loose

## **Description**

• Application: Screen guiding tube for suspended or lay-flat shading systems

• Length: 6.40 m • Diameter: 19 mm

• Material: Lightweight aluminum Packaging: Loose (individual pieces)

The Aluminum tube 19 mm - 6.40 m is used as a screen guiding tube in greenhouse shading systems. Its lightweight construction makes it ideal for wide-span greenhouses and a practical alternative to traditional 19 mm steel tubes.
