Description

- **Application:** Greenhouse shading system
- **Material:** Acrylic and aluminum fibers
- **Shading Rate:** Approx.55-60%
- **Width:** 450 cm
- **Color:** Alu-Grey
- **Feature:** Moisture-regulating and reflective

FFS 2/4 alu-grey is a high-quality shade fabric specifically engineered for greenhouse use. Its woven aluminum filaments reflect incoming sunlight, actively lowering internal temperatures to create a stable plant environment.

The acrylic yarns absorb excess atmospheric moisture from transpiration, promoting a drier, healthier, and fungus-resistant climate. The fabric is S-hook-ready—no custom sewing required—and available in several colors and sizes for flexible application.

Note: Pricing reflects fabric only. Additional costs may apply for cutting or custom finishes.

Product information

Energy Saving:	60 %
Shading:	55 %
Direct Light transmission:	45 %
Flame retardant (DIN 4102 B1):	No
UV Stabilization:	5 years (climate: Central Europe)
Weight (+/- 10%):	115 g/m ²
