PhormiTex Eclipse 1 + 98 is a high-performance blackout fabric for professional greenhouse installations. The aluminum-coated outer layer reflects sunlight and prevents excessive heating of the airspace above the screen, while the black inner layer provides full blackout. With a shading level of 99.9% and energy savings of 78%, it is ideal for demanding climate control.

Note: Price applies to material only. Additional costs for finishing (e.g. cutting, sewing) may apply.
