Description

- **Application:** Cable drum for drive systems in greenhouse shading applications
- **Material:** Impact-resistant plastic for long service life
- **Construction:** Two-shell design enables retrofitting onto the drive shaft
- **Feature:** Pre-formed grooves ensure orderly winding and consistent cable tracking
- **Suitable for:** Cables up to 3 mm in diameter
- **Capacity:** Winding length up to 570 cm
- **Installation:** Secured with four included screws and a specialized set screw
- **Packaging Unit:** 12 pcs

Cable drum 1&quot - – type II is engineered for precise cable guidance in shading systems using wire cable drives. The grooved inner surface maintains a structured winding pattern, minimizing overlap and wear.

Its two-part plastic housing allows for post-installation on the drive shaft, with secure fixing via four enclosed mounting screws and a dedicated set screw. The impact-resistant material ensures reliable long-term operation and protects the cable from premature abrasion.
