info(at)fiberlanellc.com

The woven PP fabric features a black base with an orange checkered pattern ($25 \, \text{cm} \times 25 \, \text{cm}$) that serves as a placement guide. This version is more durable than the $100 \, \text{g}$ variant and is especially suitable for areas with high weed pressure or frequent traffic from light equipment such as wheelbarrows or irrigation carts.

With a width of 335 cm, it is ideal for professional use in nurseries and landscaping projects.
