## Description

- **Application:** Connects the chain wheel of RW45 gear motors to the drive shaft
- **Tube size:** 1¼"
- **Material:** Galvanized steel
- **Mounting:** Bolted design with pre-punched receptacle for easy installation
- **Features:** Duplex chain allows axial movement of the shaft for greater flexibility

The **Bolted chain coupling for RW45 - 1¼" tube** is used to connect Ridder RW45 gear motors to larger drive shafts. It offers the same easy installation and flexibility as the 1" version, with a larger bore for 1¼" tubing. Ideal for dynamic greenhouse environments.
