

Overview

Plug 60.60, black

Product number: 22000667-1

Options

PU (Pcs)

Size

Description

- **Application area:** Sealing open pipe ends on 60 × 60 mm steel profiles, e.g. in greenhouse constructions
- **Material:** Plastic (black)
- **Dimensions:** For square pipes with 60 × 60 mm outer dimensions
- **Special features:**
 - Easy push-on installation via flexible ribs
 - Protects against injury and contamination of the pipe interior
 - Ideal for low greenhouses – reduces risk of injury at exposed pipe ends

The **Ribbed end cap 60 × 60** provides safe and clean sealing of square pipes in greenhouse constructions and other technical applications. Its flexible ribbed design allows for easy installation and secure fit inside the pipe. It protects not only against dirt and moisture but also against injuries caused by sharp pipe edges—especially important in low-height areas or zones with frequent human contact.
