## Description

- **Product:** Climatex 30 g
- **Width:** 320 cm
- **Length:** 100 m
- **Application area:** Frost protection for plants and crops
- **Material:** Light-permeable fleece
- **Function:** Protection against frost and weather conditions
- **Advantages:** Breathable, lightweight, easy to handle

**Climatex 30 g** is a high-quality frost protection fleece that is ideal for covering plant crops. It reliably protects plants from frost and weather conditions, while the light-permeable structure continues to ensure optimal sunlight exposure.

Thanks to its lightweight and breathable properties, the fleece is easy to handle and versatile in use. It helps create perfect overwintering conditions and protects plants from early or late frost.

With a width of **320 cm** and a length of **100 m**, Climatex is ideal for professional use in nurseries and agricultural operations.
