Description

- **Application:** Energy screen fabric for greenhouses
- **Material:** Closed fabric with interwoven acrylic yarns
- **Width:** 430 cm
- **Shading Rate:** Approx. 65%
- **Energy Savings:** Approx. 60%
- **Feature:** Flame retardant according to DIN 4102 B1

PhormiTex 66B - 430 cm is a closed energy screen fabric providing 65% shading and 60% energy savings. Interwoven acrylic yarns ensure steady moisture exchange and help maintain a stable climate inside the greenhouse.

The integrated reinforcement bands enable direct installation with S-hooks, and are optionally available with pre-mounted hooks for easy handling. The screen is flame-retardant to DIN 4102 B1 and UV-stable up to 600 kLy. With a weight of approx. 86 g/m², it offers a durable and effective solution for professional installations.

Note: Price applies to raw material only. Additional charges for finishing (e.g. cutting, sewing) may apply.

Product information

Energy Saving:	60 %
Shading:	65 %
Direct Light transmission:	35 %
Flame retardant (DIN 4102 B1):	Yes
UV Stabilization:	600 kLy
Weight (+/- 10%):	86 g/m ²
