

## Overview

# Coupling plate for RackDrive 700 and TRN rack drives - Tube

**Product number:** 32211627

## Description

- **Application:** Coupling plate for mounting racks to drive tubes
- **Material:** Galvanized steel for high corrosion resistance
- **Tube compatibility:** Ø 27 mm or Ø 32 mm
- **Rack compatibility:** 30×16 mm or 30×20 mm racks (RackDrive 700 and TRN systems)
- **Mounting:** Bolt-and-nut connection
- **Special feature:** Rack centerline aligns precisely with tube centerline
- **Ridder Article No.:** 416489

The **Coupling Plate Ridder** is a robust mounting solution for attaching racks to drive tubes in RackDrive 700 and TRN systems. Its precise alignment and galvanized finish ensure long-lasting, corrosion-resistant performance in greenhouse environments.
