Description

- **Application:** End cap for the opposite side of the rack protection tube
- **Material:** Plastic
- **Mounting:** Push-fit installation
- **Function:** Completes the rack protection system and prevents contamination
- **Benefit:** Enhances safety and durability of rack drive systems

The **Small Plug for Pinion Housing** is used on the opposite end of the rack protection tube to seal the system. It prevents dirt ingress and ensures a clean, finished appearance. Best used in combination with the large plug and pinion housing cover.
