Description

- **Application:** Connection between double film and spiral hose
- **Material:** UV-stabilized plastic blend for high durability
- **Installation:** Mounted using a hose clamp on the spiral hose
- **Special feature:** Optimal air distribution for film greenhouses
- **Accessories:** Hose clamp R60-65 / Spiral hose Ø 63 mm
- **Packaging unit:** 40 pcs

The **inflation valve including check valve** ensures a reliable connection between the double film and a Ø 63 mm spiral hose. Installation is carried out using a hose clamp R60-65. The EPDM check valve prevents backflow of the injected air, ensuring a stable air cushion.

The UV-stabilized plastic blend ensures high durability and resistance to environmental influences. Installation is simple and secure using a hose clamp.

The **40-piece packaging unit** is ideal for smaller installations and individual applications.
