

Overview

Hose guide hd galv.with plastic roller

Product number: 72000185

Description

- Hose diverter reel with metal anchor and plastic guide.
- For guiding irrigation hoses through your garden
- Also suitable for solid ground
- Total length: 57 cm

- Length of metal spike: 31 cm
- Length of the plastic guide: approx. 18 cm

Guide your irrigation hose specifically around corners and obstacles. In addition, you protect hose and surroundings, such as flower beds and house corners, from annoying damage.

The long metal spike and large hose deflection pulley provides stable and secure hose guidance even with very strong pulling forces. Where other hose deflection rollers fail, this hose guide is the optimal solution.
