Description

- **Application area:** Connection between drive wire rope and 19 mm pipe in shading systems
- **Material:** High-quality plastic for stable and durable fastening
- **Special feature:** Increased spacing between pipe and fabric to prevent wear
- **Installation:** Secured with an M4 x 16 socket head screw to fix the wire rope

The **Lead edge cable clip 19 EXT** is specifically designed for shading systems and enables a **secure connection** between the drive wire rope and the 19 mm pipe. The **EXT version** provides increased spacing between the pipe and the fabric, protecting the fabric from direct contact with the wire rope. This significantly **reduces wear** and extends the system's service life.

The **M4 x 16 socket head screw** is essential for installation. It ensures that the wire rope is firmly clamped and securely fixed for reliable fastening.
