Description

Equip your suspended shading system with our new clear energy screen fabric. Reinforcement strips are woven directly into the fabric to hang up the S-hooks. On your request we customize - cut, sew and insert guiding hooks to individual size - in our own facility. Upon your wish we can supply, your clear screen ready to install.

The benefits of Fiberfil Lucent at a glance:

- Excellent light transmission and also heat insulation properties
- The capillary structure of the fabric enables a perfect exchange of humidity out of the greenhouse
- Quality product "Made in Germany" from our own in-house R&D and weaving mill facility
- Compared to knitted fabrics our woven screen is dimensionally more stable and substantially much more sturdy
- Our screen is B1-certified, flame-resistant according to DIN 4102-1
