

## **Overview**

## EcoScreen 60 FR white - 3,25 m

Product number: 19006032

**Options** 

## Width (cm):

325

430

## **Description**

- Application: Closed knitted fabric for suspended and overlay greenhouse shading systems
- Material: White and transparent bands for high light permeability
- Width: 325 cm
- Climate Benefit: Acrylic fibers promote balanced humidity management

**EcoScreen 60 FR white** is a cost-effective knitted climate screen featuring translucent white yarns that gently diffuse sunlight without entirely blocking it—allowing plants to absorb the energy needed for photosynthesis.

Designed for use as both a shading and energy screen, it helps maintain stable interior conditions and improve crop performance. Ideal for growers looking for an affordable light-regulating solution with integrated climate support.

Note: Price reflects raw material only. Additional charges may apply for fabrication services.
