

Overview

PhormiTex Lumina 50 O - 3,25 m

Product number: 19050325

Options

Width (cm):

Description

Application: Open shading fabric for regulating light and temperature in greenhouses

Material: Woven white ribbons for reliable moisture and air exchange

Width: 325 cm

Energy saving value: approx. 20%

Shading value: approx. 50%

Light transmission: approx. 50%

UV stabilization: 600 kLy

Weight: 69 g/m² (+/- 10%)

PhormiTex Lumina 50 O is an open shading fabric with white ribbons, designed to regulate light and temperature in greenhouses. Its open structure promotes natural air exchange and prevents excessive heat buildup inside the greenhouse.

The woven acrylic ribbons ensure reliable moisture transfer and contribute to a balanced microclimate.

Note: The price refers to material costs only; additional costs for confectioning may apply.
