## Description

- **Application:** Motor guide for RB120E+ tube motors in vertical guide rails
- **Material:** Galvanized steel
- **Mounting:** Accepts flat-sided shaft - secured with motor collar
- **Function:** Absorbs axial and rotational forces of the motor
- **Convertible:** Can be reconfigured from left to right version
- **Ridder Article No.:** 550508 (L) / 550509 (R)

The **Guide unit for tube motors RB120E+ L** is a robust and convertible motor guide for Ridder RB120E+ motors. It ensures stable movement in vertical guide rails and can be easily switched between left and right configurations.
