Description

- **Application:** Wire fastening in greenhouse structures
- **Material:** Galvanized steel for high corrosion resistance
- **Drill Holes:** Three holes for flexible mounting options
- **Installation:** Simple hammer-on attachment to structure
- **Packaging Unit:** 200 pcs

Universal Clamp G1 is a versatile solution for securely fastening wires to greenhouse structures. With three drill holes, it allows flexible positioning and adaptation to various mounting points.

Made of galvanized steel, it offers excellent corrosion resistance and is ideal for long-term use in humid environments. Its straightforward hammer-on installation ensures quick and easy setup, making it a reliable choice for professional applications.
