Description

- **Application:** Connects the chain wheel of the RW 45 gearbox to the drive shaft
- **Material:** Galvanized steel
- **Design:** Welded to the shaft - duplex chain for inline movement
- **Benefit:** Increases flexibility of the drive system under dynamic loads and structural movement
- **Ridder Article No.:** 590099

The **Chain Coupling for RW 45 – Tube Ø 2″** is the largest of the three variants and is used in heavy-duty greenhouse installations. It ensures smooth torque transfer and compensates for misalignment or movement in large-scale structures.
