PHL White Blackout Fabric - 230 cm is an opaque woven film-laminated fabric designed for greenhouse roller shades and partitions. Its white outer coating reflects sunlight effectively, enabling full blackout and creating the ideal conditions for sensitive plant cultures.

The dual-sided coating makes it suitable for interior and exterior use. It also contributes to energy conservation and improved climate control in protected cultivation.

Note: Price refers to material only. Additional charges for fabrication (e.g. cutting, sewing) may apply.
