Description

- **Application:** Dual-layer blackout woven textile for greenhouse blackout systems
- **Structure:** Two black woven layers combined for total light exclusion
- **Material:** Durable black synthetic woven fabric
- **Width:** 530 cm
- **Mounting:** Compatible with hanging systems
- **Finishing:** Can be customized with curtain tape for track integration

PH1-FP Blackout Woven Fabric Double - 530 cm is the extra-wide format of the PH1-FP blackout textile series. With a full blackout profile and generous width, it allows seamless installations in professional greenhouse or technical shading scenarios.

Ideal for suspended use, this version can be finished to fit curtain systems or rail-mounted solutions.

Note: Price applies to base fabric only. Tailoring or finishing services may be quoted separately.
