Description

- **Application:** Roller screens and partitions for greenhouses
- **Material:** Woven fabric with white lamination
- **Width:** 190 cm
- **Shading Rate:** Approx. 100%
- **Light Transmission:** Approx. 0%
- **Energy Savings:** Approx. 60%
- **UV Stability:** 600 kLy
- **Feature:** Double-sided coated for indoor and outdoor use

PHL White-White Blackout Fabric - 190 cm is a fully opaque woven fabric with white lamination, specially developed for roller screens and partitioning systems in greenhouses. It effectively reflects sunlight and ensures complete blackout for optimal crop protection.

Its double-sided coating allows flexible use in both indoor and outdoor settings, while supporting energy efficiency and shielding plants from unwanted light exposure.

Note: Price refers to material only. Additional charges for fabrication (e.g. cutting, sewing) may apply.
