Description

- **Application:** Knitted fabric for suspended and overlay shading systems
- **Material:** White and transparent knitted bands for high light transmission
- **Width:** 430 cm
- **Feature:** Acrylic yarns support optimized humidity regulation

EcoScreen 60 FR white – 430 cm is a cost-effective closed knitted fabric with translucent white yarns that allow natural light to pass through—ensuring crops continue receiving the daylight they need for photosynthesis. Designed for use as both a shading and energy screen, it helps moderate temperature without completely blocking sunlight.

Thanks to its breathable design, it supports consistent greenhouse airflow while balancing internal humidity. A practical and lightweight solution for climate-conscious growers.

Note: Price refers to base fabric only. Customization or tailoring services may incur additional charges.

Product information

Energy Saving:	47 %
Shading:	61 %
Direct Light transmission:	39 %
Flame retardant (DIN 4102 B1):	Yes
UV Stabilization:	5 years (climate: Central Europe)
Weight (+/- 10%):	90 g/m²
