Description

- **Application:** Suitable for shading systems with cable drive
- **Material:** Impact-resistant plastic for high durability and stability
- **Function:** Grooved surface ensures orderly winding of the drive cable
- **Installation:** Two-shell design allows retrofitting on the drive shaft
- **Capacity:** Holds up to 5.70 m of cable
- **Compatible with:** Cables up to 3 mm in diameter and 34 mm drive shafts
- **Packaging Unit:** 12 pcs

Cable drum 1&quot - – type I ensures the proper winding of the drive cable in shading systems thanks to the pre-grooved plastic surface, providing consistent cable alignment and smooth operation.

Its two-part construction allows for retrofitting onto the drive shaft. The two halves are joined with bolts, securing the drum firmly in place.

The impact-resistant plastic protects the cable, extending its service life, making this drum ideal for long-term use in greenhouse applications.
