Description

- **Application area:** Suitable for shading systems with suspended fabric and gable drive
- **Material:** Impact-resistant plastic for high stability
- **Function:** Positions the drive shaft at the ideal location
- **Packaging unit:** 25 pieces

The **Offset bearing 1" for square tube 50.50** is specifically designed for shading systems where the fabric is suspended and a gable drive is used. It ensures optimal positioning of the drive shaft and enables smooth rotation.

Thanks to its impact-resistant plastic construction, the bearing offers high stability and is designed to handle tensile loads, making it ideal for long-term use.

Installation requires an M8 × 70 screw and an M8 Nyloc nut.
