EcoScreen 15 OPEN - 325 cm is a long-lasting open knitted screen designed for effective climate moderation in greenhouse environments. The breathable construction allows consistent air exchange, even when installed without ventilation gaps.

High-grade acrylic fibers promote dependable humidity transfer, making this fabric especially suitable for laid shading systems. It offers a well-balanced combination of energy savings and daylight permeability.

Note: Price is for unprocessed fabric only. Additional charges may apply for cutting or finishing services.
