Description

- **Product:** Pulley 90 with bracket

Created at 27.10.2025.

* Our offers are directed exclusively to companies. We do not conclude contracts with consumers. All prices excl. VAT plus shipping costs and possible delivery charges, if not stated otherwise.

- **Diameter:** 90 mm
- **Design:** Ball-bearing mounted, permanently riveted
- **Pulley material:** Impact-resistant plastic
- **Bracket material:** Galvanized steel
- **Application area:** Wire rope drives in shading systems
- **Advantages:** Precise bearing, durable, low maintenance

The **Pulley 90 with bracket** is specifically designed for use in horizontal shading systems. Its ball-bearing design ensures smooth and consistent rope movement. The pulley is permanently riveted into the bracket, guaranteeing precise axle alignment.

If needed, the rivet can be drilled out and replaced with an M6 screw and nut—ideal for maintenance and replacement. The combination of impact-resistant plastic and galvanized steel provides long service life even under demanding conditions.
