Description

- **Application:** Regulation of bay width in greenhouses with narrow final truss spacing
- **Material:** High-quality components for reliable performance
- **Function:** Prevents damage to the drive cable
- **Feature:** Set includes one Cross Clamp 19.20, one Slide 19–25 and two hose clamps
- **Packaging Unit:** 100 pcs

Tube mount reduction Set – TGU is designed to regulate reduced bay widths in greenhouses with tight end truss spacing. It effectively prevents damage to the drive cable by managing the tension and guiding components precisely.

The Delay set includes one **Cross Clamp 19.20**, one **Slide 19–25**, and two hose clamps, ensuring a robust and secure connection. Built with premium-grade materials, the components offer long-lasting durability and high operational safety under greenhouse conditions.
