Description

- **Application area:** Screw-on pulley for square tubes in shading and ventilation systems
- **Material:** Pulley made of impact-resistant plastic, bracket made of galvanized steel
- **Compatibility:** Suitable for square tubes measuring 50 × 50 mm
- **Rope diameter:** Suitable for wire ropes up to 3 mm in diameter
- **Installation:** Mounted using M6 × 65 screw and M6 nut

The **Pulley 90 with bracket 50.50** is a robust and durable solution for shading and ventilation systems. It is screwed directly onto square tubes and ensures precise positioning through wire rope tension.

Thanks to the combination of impact-resistant plastic for the pulley and galvanized steel for the bracket, it offers high stability and corrosion resistance.
