Description

- **Application:** Greenhouse shading fabric for climate and temperature control
- **Material:** Acrylic and aluminum fibers
- **Shading Rate:** Approx. 68%
- **Width:** 450 cm
- **Color:** Alu-yellow
- **Mounting:** Can be suspended with S-hooks without custom finishing
- **Highlights:**
 - Reflects solar heat for better climate management
 - Absorbs humidity to reduce fungal risk
 - Manufactured in Germany

FFS 4/4 alu-yellow - 450 cm delivers enhanced thermal shielding for large greenhouse spans. With a 68% shading value and a light-reflective yellow surface, this fabric combines performance and visibility. Its breathable weave balances air circulation with heat reflection and moisture regulation—ideal for productive, healthy crops in sunny climates.

Note: Price covers raw fabric only. Customizations such as cutting or sewing may incur extra cost.
