Description

- **Application:** Safety cover for rack systems in greenhouse ventilation
- **Material:** Aluminum
- **Length:** 1000 mm
- **Design:** One-sided stamped for plug-in connection
- **Use case:** Prevents injury and contamination from grease or moving parts

The **Rack Protection Tube 1000 mm** is used to shield exposed racks in greenhouse ventilation systems. The one-sided stamped design allows for easy integration with pinion housing covers and safety plugs. Ideal for clean and safe greenhouse environments.
