Description

- **Application:** Ensures straight vertical guidance of tubular motors in roll-up systems
- **Length:** 6000 mm
- **Material:** High-strength aluminum profile
- **Compatibility:** Used in combination with TGU roller carriage
- **Mounting:** For vertical installations in greenhouses

The **Guide rail for tube motor 6000 mm** is a robust aluminum profile that ensures precise guidance of tubular motors in vertical roll-up systems. It is ideal for large-scale greenhouse installations and can be combined with TGU roller carriages for optimal performance.
