Description

- **Application area:** Holding polyester wire in lay-flat shading systems
- **Material:** Stainless steel for high corrosion resistance
- **Installation:** Simple clamping onto the square tube of the frame

The **Inox wire holder universal 50.50** is designed for securely holding polyester wire in lay-flat shading systems. It is simply clamped onto the square tube of the frame, ensuring stable fixation.

Thanks to its high-quality stainless steel construction, the wire holder offers excellent corrosion resistance and long service life.
