## Description

- **Application area:** Connecting all screen profile variants
- **Material:** Aluminum for high stability and corrosion resistance

The **Connector 135 for screen profiles** is designed for securely joining all types of screen profiles. It comes with a screw and pre-cut thread to ensure easy and stable installation.

Thanks to its high-quality aluminum construction, the connector offers excellent corrosion resistance and long service life. It is specifically engineered to meet the demands of shading systems and ensures reliable profile connections.
