Description

- **Application:** Ensures straight vertical guidance of tubular motors in roll-up systems
- **Length:** 4000 mm
- **Material:** High-strength aluminum profile
- **Compatibility:** Used in combination with TGU roller carriage
- **Mounting:** For vertical installations in greenhouses

The **Guide rail for tube motor 4000 mm** provides precise and stable guidance for tubular motors in vertical roll-up systems. It is used together with a roller carriage and is ideal for greenhouse side ventilation or shading systems.
