Description

- Application: Holding polyester wire in laid-out shading systems
- Material: Stainless steel for long-lasting durability
- Installation: Simply clipped onto the square tube of the frame
- Packing unit: 100 pieces

The **Support wire bracket 50.50** is designed to securely hold polyester wire in laid-out greenhouse shading systems. It clips directly onto the square tube of the frame, ensuring fast and reliable installation.

Made of high-quality stainless steel, it offers excellent resistance to corrosion and is ideal for long-term use in demanding environments.
