Description

- **Application area:** Securing double film to aluminum film clamping profiles
- **Material:** High-quality PVC for long-term use
- **Length:** 2 m
- **Design:** Specifically developed for double film
- **Special feature:** Protects both film and profile during installation and removal

The **PVC clamping strip FN 10** is specially designed for securely fastening double film to steel film clamping profiles. Its robust construction ensures a reliable hold while protecting the materials during installation and removal.

Thanks to its high-quality PVC design, it offers long service life and excellent durability. With a length of 2 m and a packaging unit of 100 pieces, this clamping strip is ideal for professional greenhouse construction applications.
