

## Overview

# Plug, big for pinion house

Product number: 32200004

## Description

- **Application:** End cap for rack protection tubes in combination with pinion housing covers
- **Material:** Plastic
- **Mounting:** Push-fit onto the end of the protection tube
- **Function:** Guides the rack centrally and prevents contact with tube edges
- **Benefit:** Reduces friction and wear, completes the rack protection system

The **Large Plug for Pinion Housing** is mounted at the end of the rack protection tube and ensures a clean, centered passage of the rack. It prevents the rack from rubbing against sharp edges and complements the full protection system when used with the pinion housing cover and small plug.
