Description

- **Application:** Ventilation systems in greenhouses with limited interior space
- **Material:** Galvanized steel sheet
- **Length:** 1546 mm
- **Toothing:** Curved, inside toothed
- **End piece:** Toothless for safety stop
- **Compatibility:** For pinion housing TU 11:30
- **Tooth height:** 30 mm
- **Ridder Article No.:** 418579

The **Rack 30-3 / L1546 mm - curved inside toothed** is designed for larger vent openings while maintaining a compact footprint. The curved profile minimizes intrusion into the greenhouse, and the toothless end ensures a secure stop. Supplied with run-out protection (UV=77) as standard.
