Description

- **Application:** Gentle fastening of fabric to 19 mm steel and aluminum tubes in shading systems
- **Material:** Flexible, UV-stabilized plastic
- **Tube Diameter:** 19 mm
- **Installation:** Simple clip-on - no tools required
- **Packaging Unit:** 100 pcs
- **Features:**
 - Prevents fabric damage - significantly gentler than metal clamps
 - Ideal for laid-on and suspended shading systems
 - Easy handling during installation and removal

Tube Clip 19 mm is a proven solution for attaching shading fabric to 19 mm tubes in greenhouse installations. Its plastic body protects the textile from damage—unlike traditional metal clamps. The clip snaps securely onto the tube and ensures reliable hold while preserving the integrity of the material. Perfect for durable, low-maintenance shading systems under demanding conditions.
