

Overview

Lead edge cable clip 19 - with cloth retainer - PU = 20 pcs

Product number: 20100100

Description

- **Application:** Connects 19 mm aluminum pipes to the drive cable in laid shading systems
- **Material:** Steel
- **Feature:** Integrated cloth retainer bracket supports fabric return movement
- **Packaging Unit:** 20 pcs

Lead edge cable clip 19 - with cloth retainer is a robust steel connector used in laid shading systems for greenhouses. It enables secure fastening between **19 mm aluminum tubes** and the **drive cable**.

The integrated cloth retainer ensures reliable retraction of the shading fabric, maintaining consistent guidance and performance during system operation.
