## **Overview**

## **Snapper 1,5 - PU = 1000** pcs

Product number: 22000110

## **Description**

- Application: Fastening element for securing sub-roof film to greenhouse structural beams
- Material: Durable plastic for long-lasting use
- Packaging Unit: 1000 pcs

Snapper 1.5 is a versatile connector specifically designed for attaching sub-roof film to greenhouse beams. Its sturdy plastic body ensures reliable and long-term performance in demanding outdoor conditions.

With its easy-to-use design, Snapper 1.5 enables quick and secure installation, significantly improving the overall stability of the film attachment within greenhouse construction.
